

It has been brought to my attention the FCC is considering changing the FM service translator for K-Love to LPFM. K-Love is the only station in this OKC area that has the quality listening for my young family. K-Love has changed my life! It has influenced my husband and children in a way I never dreamed possible. God ministers through this station daily for my family and my entire circle of friends. The effect on this community as a whole if K-Love were to be displaced by an LPFM broadcaster providing other programming would be devastating ! This country is in extreme desperate need for spiritual revival. K-Love is a powerful tool of our Lord Jesus Christ and must remain untampered with!! K-Love ministers to every type, class and denomination in existence today. Music and uplifting verses and solid morals make clear a way for even the most lost of souls to experience the healing power of Jesus Christ! Please, allow this ministry to continue Gods work without interference!! There is so much evil in the world, our community NEEDS this reprieve!! Sincerely in Christ, Jane Lanzner
